## LITTLE LAKE BUTTE DES MORTS (LLBDM) CROSSING

### Project Construction Timeline (2014 - 2016)

- Adding a new parallel bridge south of the existing bridge to handle eastbound traffic with three through lanes and one auxiliary lane
- Re-conditioning the Roland Kamp Bridge to handle westbound traffic
- Using concrete girders for new bridge with alternative bridge pier layout
- Provide overhead lighting on bridges across LLBDM to improve night visibility

## ROLAND KAMPO BRIDGE (LITTLE LAKE BUTTE DES MORTS CROSSING)

***Drivers can expect the following traffic impacts in 2015:***

- Eastbound and westbound US 10/ northbound and southbound WIS 441 bridge lanes over Little Lake Butte des Morts will have 11-foot wide lanes and narrow shoulders all year.
- Intermittent lane restrictions may occur throughout 2015.
